4 The Chief point of Mr Subbiswamy Iyers Explanation is that he took the permission of the DI for taking things on credit & that he was paying off his dues promptly enough The DI states that there is no record of any such permission having been given Seeing the position of Mr S Iyer towards the School it was his duty to have represented the his case matter fully to the DI & to have obtained the DI's written sanction He does not state who the then DI was from whom he obtained oral (apparently) permission

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

8-4221

No 8993 / 457

Bangalore 20th January *191* 4

From Rao Bahadur
M SHAMA RAO ESQ MA
Inspector General of Education in Mysore

To C S Balasundaram Iyer Esq B A
Secretary to the Government of
His Highness the Maharaja of Mysore
Departments of Education & Agriculture
BANGALORE

SIR

With reference to para 4 of Government Order No2226-7/Edn 11 12-6 dated 25th August 1913 calling for the explanation of Mr Subbuswami Iyer for having purchased articles on credit for large amounts from the Government Industrial School Mysore for the management of which he was responsible I have the honour to forward herewith a copy of the explanation submitted by him There is no reference in this office of Mr Subbuswami Iyer or any other employe having been allowed to take things on credit

I have the honour to be

Sir

Your most obedient servant

M Shama Rao

Inspector General

TNR

58

Letter No 131 dated Camp Kunigal 4th December 1913 from Mr Subbuswami Iyer B A L T to the Inspector General of Education in Mysore

---

With reference to your No 3108-9/495 dated 15th September 1913 asking me to submit the explanation called for in para four of Government Order No 2226-7/Edn 115-12-6 dated Bangalore 25th August 1913 I have the honour to state that the amount of outstandings due by me as reported by the Comptroller is the balance due to the school for supply of materials for my house over a period of nearly four and a half years ($4\frac{1}{2}$ years) As the materials were being supplied I was also paying mostly the amounts year after year In fact it was a running account It will be seen from the accounts that of the total amount of Rs 2 900/- for materials supplied during these four and a half years I had at the time of the audit paid nearly Rs 1980/ by yearly instalments and I had arranged to pay the balance within the 30th June 1913 by monthly instalments of Rs 100/- so as to close my account by the end of the official year The balance due up to 30th June 1912 was paid as directed by the 30th June 1913 When the retrenchment slip was issued in 1912 I had paid Rs 300/- and still owed the school only Rs 613/- and odd

2 When I was offered the place of the Superintendent Industrial School I hesitated to accept it for fear of plague and Mr Bhabha the then Inspector General told me that he would try to get me quarters in healthy localities He tried his best after I joined the appointment but he could not get me any as none was available nor did he succeed in getting me the house rent allowance that he recommended It was rather difficult to find a house in a healthy locality and a large family man like myself had to live always in dread and anxiety I had heavy work as the Superintendent of the Industrial School which I took up in 1904 with about 40 boys and which grew to a strength of 200 and as Secretary of the Exhibition I could not get even a second to have materials done elsewhere I had offer of timb

at

at much more favourable rates from some timber merchants who agreed to take money by instalments as they believed they could have a fair business in this way in the extension Even this was not considered safe However careful I might have been in keeping vouchers etc it would not have been possible to avoid a talk or suspicion if I (head of an Industrial School) had got the wood and iron work done outside I knew that the Superintendent of the Technical School Tinnevelly got into great difficulties for building his house with materials supplied by contractors There were petitions against him alleging that he had taken most of the materials from the school making a show that he was getting them from contractors He was subjected to much unnecessary annoyance If the work was done in the school the detailed accounts kept there would admit of articles being checked and verified at any time The Comptroller himself checked a few items and found them satisfactory He expressed this to me in the school itself before you if I remember right when he was checking the figures As a precaution I applied to the Inspector General of Education for permission to take materials for my house and he permitted me to do the same and asked me to submit the statements of materials required with rates etc As the dimensions of the materials required were in the absence of a definite plan being changed very often by the contractor I submitted to him in person that I will would submit the statement on completion of the work I now regret I did not record this I beg also to mention to you that I consulted one or two important Committee members and I took this step on their strong advice As I am afraid I could not give out their names without previously obtaining their permission I refrain from doing so When I was in Madura I used to get the materials required for me done in the institute and pay the dues every year On my leaving the institute the accounts were audited by the Superintendent of the P W Workshop and the Inspector of Local Fund Accounts as my successor could not reconcile the different items and I was given two years after I left the institute a bonus of Rs 1 000/- for the excellent condition of accounts etc in the words of the Government order

The

The same system of accounts was introduced in the Industrial School Mysore I wanted therefore to take great precaution to keep up the name I had earned as Superintendent of Industrial Schools for nearly 22 years I beg also to mention here that I had not any outstandings in the previous four years before I began to build my house You will thus be pleased to see that I did not take the least advantage of my position and that I have done to myself as a citizen of the city just as much as and sometimes even less than what I have done to others

3 I got your order about the 8th September 1913 As I did not draw my pay that month I paid my dues to the school in October last for articles supplied after my leaving the school for orders placed long before I left it I should have paid it by the 30th September

4 I regret very much that my action in the matter which I took after careful consideration has given rise to such an impression I beg to submit that I did this with a view to avoid subsequent difficulties and that I may be excused for it

---
